

PE and Sport Grant Statement

School Sport Premium is additional funding provided to schools to improve the provision of PE and sport, for the benefit of primary-aged pupils, so that they develop healthy lifestyles. It is for schools to decide how this is spent as they are best placed to access what additional PE and sport provision should be made for the individual pupils at their school. We are required to publish online information about how we use the premium.

2017/2018 – allocation £13,989 (£10,302 + £3687)

Use:

- Daisy Chain cluster membership – we contribute financially into the package. This funding provides a vast range of competitions, festivals and sports events.
- The work of our Sports Coach – Miss McDonald – in supporting and leading Sport and PE throughout the school and enabling high quality sporting provision to be maintained for the children.
- Employment of specialist sports coach for after school. This has enabled us to provide 4 after school clubs for KS1 and KS2 children to attend on a weekly basis increasing the total amount of PE time available. The clubs are linked to inter-school competitions across the cluster. We also work closely with local sports clubs to encourage gifted and talented children to attend clubs outside of school so that they can further their experience and skill set.
- Employment of specialist sports coach at lunchtime. This has enabled us to set up Mid-day mile across both KS1 and KS2 on a weekly basis and to continue with the organised games and develop skills.
- CPD for lunchtime supervisors. This has enabled us to provide KS1 lunchtime club for children to attend on a weekly basis.
- The majority of PE lessons are delivered by our sports coach, improving the quality of PE delivery, but also allowing staff to develop their practice by learning from specialists.
- Providing more opportunities for more children to get involved in more sports – every year all children get the opportunity to experience a sport that is unique to that year group, for example, yoga, judo and orienteering.
- Resources and equipment - we regularly audit equipment to make it safe to use and purchase new to replace old for curriculum PE and after school clubs. We also buy new equipment to further our range of resources so that more children can experience as many sports as possible. We spend a lot of money providing school kit so that when the children represent the school they feel an identity and a sense of pride wearing the school colours.

- Transport and competition costs. This has allowed more children the opportunity to participate in sporting events within the wider community.
- UKS2 swimming. Cost of hiring the swimming baths with lifeguards. Funding used to enhance the provision of swimming with extra swimming teachers employed to ensure children are taught in small groups at the appropriate level. Look into LKS2 having taster courses and push on with the swimming at an earlier age to get over the fear factor.
- Sport / Healthy & Wellbeing Week activity support and funding of specific sporting/leisure experiences.
- Engagement within 'Young Health Champions' programme developing the skills, knowledge and confidence to act as peer mentors, increasing awareness of healthy lifestyles and encouraging involvement in activities to promote good health.

Accountability

Schools will be held to account for how they spend the sporting funding. Ofsted will strengthen its coverage of sport and PE within the Inspector's Handbook and supporting guidance, so that schools and inspectors know how sport and PE will be assessed in future as part of the schools' overall provision.

Inspectors will consider the impact of the primary school sport funding on pupils lifestyles and physical wellbeing. They will take into account;

- The increase in participation within a school.
- The increase and success in competitive school sport.
- How much more inclusive physical education curriculum has become.
- The growth in the range of the traditional and alternative sporting activities.
- The improvement in partnership work on physical education with other schools and other local parties.
- Link with other subjects that contribute to pupils overall achievement and their greater social, spiritual, moral and cultural skills.
- The greater awareness amongst pupils about the dangers of obesity, smoking and other such activities that undermine pupils' health.

Outcomes

- Increased access to high quality sporting provision.
- Increased representation of local and area competitions.
- Increased take-up of external sporting provisions.
- Increased skill level across all classes.
- Improved teacher and support staff knowledge in sporting and games provision.
- School Games Bronze Award.

Best practice

Schools will be able to draw information on effective practice from case studies provided by the very best schools. South Bank Primary works closely with the Youth Sport Trust accessing up to date research and advice. Awards will be awarded to schools based on the use of their funding and on the impact it is having within their school.

Long term impact of funding

Our funding is not only used to provide a range of sporting activities for the children to participate in, it also encourages them to seek out opportunities to build on this outside of the school day and on a weekend. As a school we want to ensure our children are gaining skills for life and active and healthy lifestyles will be sustained well into adulthood. Teaching staff are also significantly up skilled and are more confident and competent in the delivery of the PE curriculum.
