

Year 1 - Galileo  
Spring 2 Newsletter

I hope you all had a well-rested half term. I have been very impressed with how resilient you have all been and how well you have adapted to remote learning. I hope that it will not be for much longer and we can all be together again as soon as it is safe to do so. Until that time, keep looking at the class page, it will guide your home learning. You can contact me for additional help and support at [Galileo@southbankprimary.co.uk](mailto:Galileo@southbankprimary.co.uk)

### Literacy

Please see the class page for guidance on how to support your child's literacy while at home. Videos are uploaded each week to support your child's development of their reading and writing skills.

The appropriate resources will be provided in the home learning packs, to ensure your child can access their literacy learning at a level, which is appropriate for them.

### Maths

This half term we will be focussing on measurement. We will be measuring length, height, weight, and volume.

### Reading

I have enjoyed listening to children read at home on Microsoft Teams. Please try to read each day. There will be a reading activity on the class page and you can access books on Oxford Owl.

Key stage 1 High Frequency words and tricky words are available on the class page for children to practise reading.

### Topic

This half term the focus will be SMSC - spiritual, moral, social and cultural development. We will be learning about the following:

- My body
- Moral Compass
- Peer relationships
- World community
- RE - Why is Easter special to Christians?

### PE

Try to stay active. Socially distanced local walks will help to keep you fit and well.

This would be great to do on screen free Fridays. .
